It is the aim of Professor Wheeler's lecture to bring the custom now existing in the United States of putting the public before their pastimes upon a new basis, and to show how, by so doing, we are able to do so much more for the people, and to do it so much more cheaply, than we have been able to do in the past. The lecture is a very interesting one, and is well worth a visit to the lecture hall. The lecture is given in the lecture hall of the University of Chicago, and is given by Professor Wheeler, who is a very well known lecturer on the subject of the history of the United States.
